

International Workshop on
**DAM SAFETY
EVALUATION**

Grindelwald, Switzerland, 26-28 April 1993

Sponsored by the international journal
Dam Engineering

Co-sponsored by the
International Commission on Large Dams

VOLUME 1

SESSIONS 1-4

Edited by
H. Kreuzer, R. Dungar
and R. Taylor

Tel: +44 (0)81 770 9972

INDEX: VOLUME 1

Session 1: Static loading - Floods

- 1 E Aisiks - Design floods and dam safety: South American criteria and practice
- 13 N Schnitter - Flood damages on dams
- 21 A Vogel - Research for risk evaluation of dam failures by defining a break-dimension- time-factor

Session 2: Static loading - Erosion and long term behaviour

- 33 A D M Penman and V Milligan - Longevity of embankment dams - a critical review
- 53 R A Stewart and A Imrie - A new perspective based on the 25 year performance of WAC Bennett dam

Session 3: Static loading - Embankments

- 71 D J Naylor, M M Farias and J Maranha - Load transfer in central core embankment dams due to differential settlement
- 83 H Czaplá and J P Lourens - Aspects on numerical modelling of stress-strain-behaviour of filling materials and natural soils
- 95 H Kisa, H Fukuroi and M Urayama - Effect of valley configuration on dam behaviour
- 107 H-W Hönig and H-S Choi - Safety evaluation of 17 old dams in Algeria
- 121 J J Fry and P Delage - The assessment of the stability of earth dams during construction
- 139 M Seid-Karbasi and A Szavits-Nossan - An evaluation of a 20-years old earth-rock fill dam behaviour
- 151 J Pinrode and T Thongsiri - Remedial work - Khao Laem Dam
- 163 J P Lourens, C Oosthuizen and J Czaplá - Back analysis of a 91 m-high embankment dam

Session 4: Static loading - Concrete dams and foundations

- 175 J M Hohberg - Peak strength and path dependency in arch dam analysis
- 187 C H Yeh, C Wagner, J Niznik, V J Zipparro and M Kalsouni - Fontana emergency spillway: a case study
- 199 P Royet and G Degoutte - Methodology of safety evaluation of small old masonry dams, illustrated with one example
- 211 C B Abadjiev and N I Dimitrov - Reassessment of bearing capacity of Kardjali arch dam and abutment stability
- 223 H Stäuble, E Wagner and G Zenz - Comments on the arrangement of grout curtains with special regard to uplift pressures in the case of large dams
- 229 K V S Subrahmanyam and G A Narayana - Supa high dam on complex foundations - choice of safety measures
