WITH THE PATRONAGE

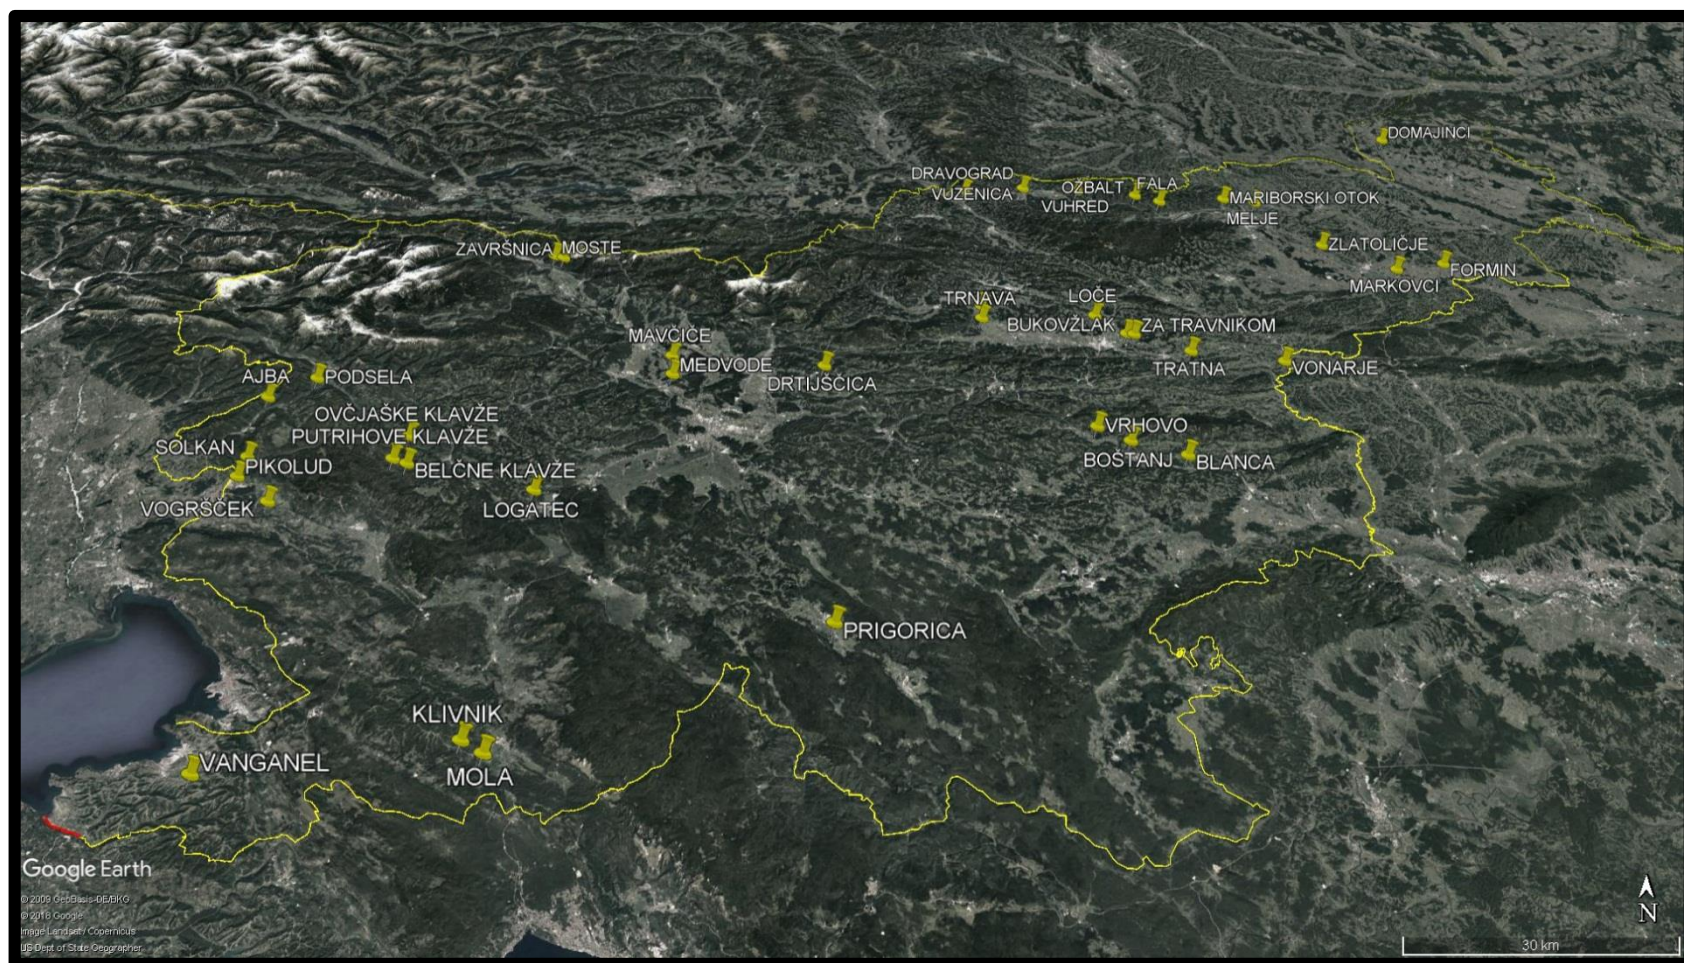

CONSIGLIO NAZIONALE
DEGLI **INGEGNERI**

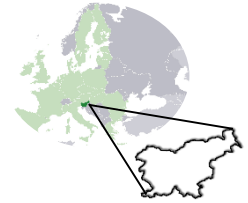

Dams in Slovenia

Dams in Slovenia

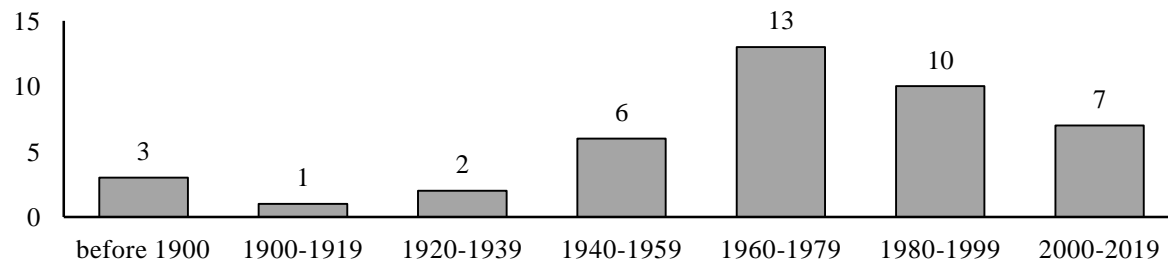

- 42 large dams.
- The highest dam is 60 m high (Moste dam on Sava River).
- Dam types: combined.
- Usage: hydropower, flood protection, irrigation.
- Power production in Slovenia: hydropower, thermal, nuclear.

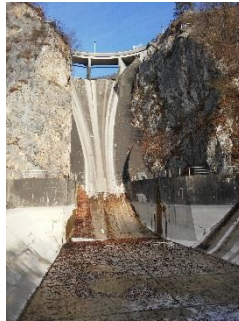

II Workshop YEF ITCOLD

Dams by age.

3 historic dams built in
18th century

SLOCOLD

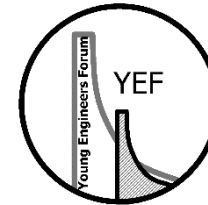

- SLOCOLD was established in 1993.
- Members are active in ICOLD, EU Club...

II Workshop YEF ITCOLD

SLOCOLD YEF
How it all started

SLOCOLD YEF

Established on 28 November 2018.

Formally we have 2 representatives.

Aims:

- Connecting with other YEFs and similar societies.
- Networking between young specialists in Slovenia.
- Knowledge transfer.
- Additional technical excursions, seminars...
- Encourage involvement in SLOCOLD and ICOLD activities.

Our agenda (by now):

- We have informal meeting every two months.
- Also students are invited.
- For now we have 15 members.
- First technical excursion to see 5 hydropower dams in Bosnia together with students from UL FGG.

Thank you.
