Closing of Symposium

P. Ólafsson, Vice-Chairman Organizing Committee (Iceland)

Note: * Asterisk means that the contribution of the author is not included as the paper was not submitted in writing as requested.

INTERNATIONAL SYMPOSIUM ON ANALYTICAL EVALUATION OF DAM RELATED SAFETY PROBLEMS

57TH EXECUTIVE MEETING OF ICOLD

Symposium Procedure

The Symposium will take place at the SAS Hotel Scandinavia, Copenhagen, Denmark on Wednesday July 5 1989. Official language is English. The Symposium will be divided into two consecutive sessions dealing with the following subjects:

1. Session 8.30 - 12.00: Theme A Concrete Dams
2. Session 14.00 - 17.00: Theme B Embankment Dams

A panel consisting of a chairman, a general reporter and 3 respectively 4 panel experts will introduce and lead the discussion on each theme.

The chairman will preside and direct the session and he will present a summary report on incoming papers. The general reporter will give a lecture on the state of the art of the respective theme. These speeches will take appr. 60 min. and will be followed by appr. 30 min. commentary from the panel of experts.

After a coffee break the session will continue with general discussions directed by the chairman. Participants shall in advance of the discussion prepare and submit to the chairman of each theme on a Special Form - available at the Symposium - the contents of their presentation. Each participant can only be allowed appr. 5 minutes for his presentation. It is important to note that only presentations submitted on the Special Form will be printed in the Proceedings of the Symposium.

The papers presented for the Symposium and accepted by the Scientific Committee are printed in a special edition "Volume 1 - Presented Papers", which is available for participants upon arrival at Copenhagen.

Presentation by experts and participants during the Symposium will be published later in a separate edition "Volume 2 - Proceedings".
